USPTO

SECOND REQUEST FOR STATUS OF PATENT APPLICATION

The undersigned requests the status of the above referenced patent application.

Last Known Status. The application had been declared abandoned for failure to reply to office action mailed 12/8/03. A request for revival was filed by the undersigned 8/24/04 including fee and a proposed amendment to the office action in question.

A previous request for status had been filed 2/9/05. Examiner Weinstein phoned the undersigned on or about March 9, 2005 telling me that the petition previously filed simply needs to be "put into the system." He also said he would call back a week later to confirm that the case and/or petition was back on schedule. As no call has been forthcoming, we sincerely request this second request for status.

A stamped self address envelope is enclosed for your convenience.

Sincerely,

John P. Halvonik
